## WHO AM I?

I started my career when I began to learn Gnu/linux. then Opensource technologies becomes my first interest. after learning python during my BSC I tested my development knowledge under production with virakad.com. Lately and after graduation I'm working on Ecmascript and specifcily react and mahanhyper.market is the result. I have more than two years experience with web technologies and I'm looking for new opportunities. also I have some freelance experince using react-native and Docker
